Erin,

I called you and left a message. This is the first I have heard of this. I'm pretty surprised actually, and would still love to see the conclusions they drew based on the groundwater sampling completed last July.

At any rate, I am in the field tomorrow. I will try to give you a call in the afternoon when we are on our way back. If not tomorrow I'll be in touch first thing Monday.

Thanks so much for the heads up!
Sarah

Subject: EPA general notice letter

*Hi Sarah,
Have you seen the attached letter from the EPA? I just received a copy today. Have you had a chance to speak with AIMCO about the letter?*
